

CS656 assignment 2

Quanyu WANG 20812011 q426wang@uwaterloo.ca

Spring 2020

In this assignment, the emulator is in ubuntu-1804-002, the receiver is in ubuntu-1804-004, the sender is in ubuntu-1804-008. I set the TIMEOUT = 0.1s. All the transmission time units are in seconds (s).

Analysis

- Combination

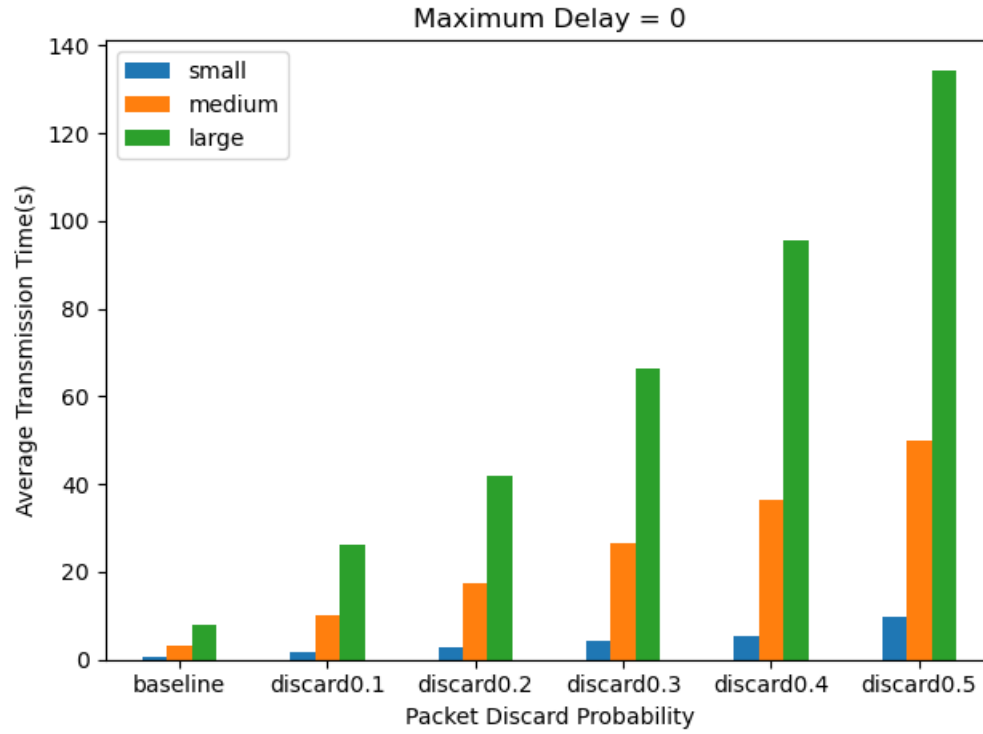

First, I draw the figure 1 to show all the average transmission time in small.txt, medium.txt and large.txt. As we can see, there will take a pretty longer time when we transfer larger file with a larger packet discard probability. On the situation of same delay and the same packet discard probability, the larger the file, the longer the transmission time. The packet discard probability would be the most impact part of transmission time. If we apply both delay and discard probability, the transmission time will become large.

- Without Delay

Second, I draw the figure 2 to show the trend when increasing the packet discard probability by 0.1 without packet delay. I found that increasing the packet discard probability would increase the transmission time exponentially.

Case	Maximum Delay(ms)	Packet Discard Probability	Small	Medium	Large
Baseline	0	0	0.4929715	3.235453844	7.8197298
No Delay 1	0	0.1	1.762215058	10.13868149	26.0882764
No Delay 2	0	0.2	2.882684787	17.50432237	41.962539
No Delay 3	0	0.3	4.380417426	26.40254331	66.503931
No Delay 4	0	0.4	5.332278887	36.39604084	95.61707
No Delay 5	0	0.5	9.743963242	49.78660758	134.394564

- Without discard

Third, I draw the figure 3 to show the trend when increasing the packet delay probability by 10 without packet discard. I found that increasing the packet delay probability would increase the transmission time linearly.

Case	Maximum Delay(ms)	Packet Discard Probability	Small	Medium	Large
Baseline	0	0	0.4929715	3.235453844	7.8197298
No Discard 1	10	0	0.538227876	3.00615557	7.8304766
No Discard 2	20	0	0.653146903	3.272752126	8.25250793
No Discard 3	30	0	0.705226183	3.830225309	9.27737919
No Discard 4	40	0	0.888595025	4.838430882	12.167059
No Discard 5	50	0	1.145251354	5.863370021	15.0924521
